Modern School in Olsztyn, in warmińsko-mazurskie voivodeship is an educational institution with an established reputation in teaching English language. The institution focuses on the quality of teaching as well as on educational market needs. Its open policy resulted in the interest in Pearson Test of English exams in the region as an ideal offer for English language students. Moreover, Modern School can be proud of its well-educated and experienced staff and well-equipped examination rooms. I can highly recommend the school for becoming an LCCI Centre.
