

Castellon, Spain September, 10-2018

To whom it corresponds:

The **Implant Prosthodontic Program**, which is made between the Mediterranean Prosthodontic Institute and the Department of Prosthodontics of the University of North Carolina at Chapel Hill, United States of America, under the direction of Dr. Fernando Rojas-Vizcaya is a highly specialized program with the most up-to-date theory, protocols and workshops, that are handled worldwide in the field of Implant Prosthodontics.

The participants will acquire a new work philosophy, which involves new skills and protocols, developed mostly by Dr. Fernando Rojas-Vizcaya. At the end of the program they must present an exam and receive a certificate of completion of the program.
